Series FP-1132

1/2 Turn Frostproof Sillcocks

Size: 1/2" x 1/2"

Series FP-1132 1/2 Turn Frostproof Sillcocks are designed to provide freeze protection of the external water supply as well as backflow protection to the potable water supply. Frostproof Sillcocks feature solid brass construction with nickel-plated finish, copper tube, brass vacuum breaker, and a heavy metal handle. These Frostproof Sillcocks are designed to ASSE Standard 1019.

FEATURES

- Frostproof design drains automatically
- Brass vacuum breaker prevents contamination of the potable water supply from backsiphonage and backpressure
- ASSE Standard 1019
- Metal handle
- 3/4" Hose connection
- 1/2 Turn Ceramic Cartridge

MODELS

FP-1132 for wall sizes 4" - 14", 1/2" copper or 1/2" male IPS inlet

STANDARDS - APPROVALS

ASSE Standard 1019, Mass. Approval # P1-0408-322
